QUADSAFE

Unless otherwise specified, all Pacific brand helmets incorporate shells laminated using Dupont Kevlar®, with exterior painted high gloss durable UV resistant paints. Internal sub-components vary according to model and specification, and a significant range of options is available. Please contact your nearest Distributor for detailed assistance.

Materiales Principales y Construcción

Al menos que se especifique lo contrario, todos los cascos de Pacific Helmets incorporan armazones reforzados de compuestos laminados de Kevlar® de Dupont. El exterior del casco está pintado con pinturas brillantes resistente a los rayos UVA. Los subcomponentes internos varían según modelo y especificaciones, disponiéndose de una extensa gama de opciones. Contacte con su Distribuidor más cercano para cualquier duda o visite nuestra Web para una información detallada del producto que le interesa.

Matériaux clefs et construction

A moins d'autres spécifications, tous les casques PH possèdent une coque en composite laminée renforcée avec du Kevlar de chez Dupont, peinte sur l'extérieur avec une peinture glycéro haute qualité résistante durablement aux UV.

Les sous-ensembles internes varient selon le modèle et les spécifications, et une gamme significative d'options est disponible.

Contactez s'il vous plaît votre distributeur le plus proche pour plus de renseignements, ou visitez notre site web pour des informations détaillées sur nos produits.

Materialien und Aufbau

Wenn nicht anders spezifiziert, werden alle Helme von Pacific als laminierte Schalen hergestellt und durch Dupont Kevlar® verstärkt. Für die Außenschale werden sehr hochglänzende und dauerhaft haltbare UV-Lacke verwendet. Das Innenleben der Helme variiert je nach Modell und Spezifikation. Hier gibt es eine große Vielzahl von Ausstattungsmöglichkeiten. Für weitere Auskünfte stehen Ihnen unsere Distributoren in den jeweiligen Ländern zur Verfügung oder besuchen Sie uns im Internet unter: www.pacifichelmets.com

Viktigaste material och konstruktion

Om inget annat specificeras så består samtliga Pacific hjälmar av ett kompositlaminerat hjälmskal förstärkt med DuPont Kevlar® - utvändigt målade med högblank och slitstark UV-resistent färg. Invändiga komponenter varierar mellan olika hjälmmodeller och hjälmspecifikationer, samt en rad tillvalsmöjligheter tillgängliga. Vänligen kontakta er lokala Pacific-distributör för mera information eller gå in på vår webbsida och sök produktinformation där.

Materiais e Construção

Salvo especificação em contrario, todos os capacetes da PACIFIC incorporam cascos reforçados com laminados compostos usando Kevlar Dupont, a pintura exterior de alto brilho resistente a ação do UV. Os subcomponentes internos variam de acordo com o modelo e a especificação, uma significativa variação de modelos e especificações também está disponível. Por favor entre em contato com o Distribuidor local mais próximo para obter assistência detalhada, ou visite nosso website para maiores detalhes dos produtos.
